WHAT IS TEACH FOR PAKISTAN?

Teach For Pakistan is a non-profit company working with the mission to create leadership to end educational poverty in Pakistan.

Teach For Pakistan is a partner in the Teach For All global network of **55+** independent, national organizations working to end educational inequity.

WHY DOES TEACH FOR PAKISTAN EXIST?

Solving Pakistan's education crisis requires fixing many pieces of the problem across our education, social and economic systems. Rather than building a single solution, Teach For Pakistan is building a movement of leaders who create multiple, diverse solutions to provide all of Pakistan's children an excellent education.

TEACH FOR PAKISTAN'S APPROACH TO LEADERSHIP DEVELOPMENT: THE FELLOWSHIP

Teach For Pakistan recruits outstanding university graduates and young professionals to a two-year Fellowship to teach full-time in low-income communities, and develop the leadership and motivation to work effectively towards education reform in the long-run.

In schools and communities: Fellows boost students' learning outcomes and future opportunities, and build teachers' and parents' capacity to address local barriers to education.

In the broader system: Alumni work from across all fields to tackle the most pressing challenges affecting education development.

TEACH FOR PAKISTAN'S HISTORY, OUTREACH AND IMPACT

Teach For Pakistan was piloted in Karachi and Lahore where 102 top graduates from public and private universities across Pakistan taught and transformed life-paths for **5,000+ children**, improved **40 public, non-profit and low-cost schools** and ran **47 projects** to strengthen school and community response to children's needs. As Teach For Pakistan Alumni, **117 young leaders** have gone on to affect change at scale by reshaping provincial teacher recruitment policies, re-writing government textbooks, training thousands of teachers, further tech-based learning, and leading model schools.

In 2017, Teach For Pakistan launched as an independent national organization headquartered in Islamabad, and has **37** Fellows placed in **14 public schools** in Islamabad.
